# THE ART OF AERIAL LUXURY

**FLYING TRIGGERFISH** | Taking to the skies from February 2019

Inspired by the Picasso Triggerfish, the world-exclusive Flying Triggerfish is the first customised DHC-6-300 Twin Otter airplane by Four Seasons, and one of the most luxurious and Instagrammable seaplanes ever to grace the Maldivian skies.

Sink into one of eight extra-wide VIP Muirhead leather seats. Take-off and land on water in exhilarating style piloted by experts from TMA, the world's largest seaplane operator. And with flights cruising at just 3500 ft, marvel in comfort at the Maldives' pearl-like islands during airport transfers, private charters, island-hopping excursions and seaplane surfaris.

There is only one Flying Triggerfish so please contact us in advance to make a booking.
