# OCTANT

Hotels · *Vila Monte*

Situated in the Eastern Algarve, amidst the Mountains and the Ocean, Octant Vila Monte possesses an age-old charm.

It is a time steeped in traditions and flavours, a time attuned to the rhythms of the seasons, adorning our garden's trees with various hues, blossoms, and fruits. It's a time of the ebb and flow of the tides in the Ria Formosa, where a preserved way of life coexists with a delicate ecosystem. It's a time of villages whose origins have faded into the distant past, a time marked by the unhurried pace of shepherds and the patient casting of fishermen's nets into the sea.

However, it's also an era of significant change, replete with new challenges and experiences, within a world simmering with transformation. And it is here that we dwell, striking a balance between honouring our roots and embracing the opportunities presented by this evolving world. We aspire to share this fresh experience with you, in a space that has distanced itself from the hustle and bustle of the crowds. This is a southern land, the Algarve, which remains pristine and untouched.

# OCTANT

Hotels · *Praia Verde*

We are in the Eastern Algarve, very close to the Guadiana River, which is a natural border, in a place of pure escape. When you arrive here, take a deep breath and enjoy. The Octant Praia Verde, thanks to its location, everything it has to offer and its various spaces, is the ideal place to bask in the Algarve's long, bright days, whether in summer or winter. Take a swim in our pool or go to the beach, right next door, where you will find golden sands and a sparkling sea. You can take a stroll through the pine forest, whose shade will protect you from the sun, or take a ride in our buggy.

When you get back to the hotel, you can enjoy our comfortable, modern rooms and suites decorated in natural tones and full of light.

There is no rush here: we want you to discover the Algarve, which is still so authentic and rustic, along with its lifestyles, handicrafts and cuisine.

## Hotels · *Douro*

Situated at kilometre 41 along the Douro River from its mouth, our location and the architectural elements of our building enhance the connection to the encompassing landscape and provide an escape from reality.

The Octant Douro, constructed from shale and glass within an Terrace system that nearly stretches to the river, has been designed with our future sustainability in mind. Here we have cultivated a garden where we harvest fresh herbs daily.

Here, the human construction, encompassing the building itself, the two open-air swimming pools, and the river dock, seamlessly integrates with the river and the surrounding mountains. The natural environment remains a consistent theme at the hotel. Whether indoors or outdoors, we are consistently immersed in nature. This forms a distinctive feature of the Octant Douro: a hotel that serves as a piece of art engaged in an ongoing dialogue with the river and the valley. Within this dialogue, the hotel's concept evolves into a sophisticated yet minimalist space, finely attuned to every detail and requirement of its guests, while remaining in perfect harmony with its picturesque surroundings.

Hotels · *Ponta Delgada*

NYC

We look towards the sea as a source of inspiration that guides us every day. We are modern, cosmopolitan and vibrant. But we never forget where we came from, our island origins, the traditions we make an effort to preserve, and the products and cooking techniques of our local cuisine. And, so, yes, we are a contemporary hotel, but which has never lost its São Miguel accent. Here, you can drink a gin with friends at the end of the day, try a dish made from the best local products (but always with a unique twist), kick back in the Spa, go swimming in our panoramic pool and wake up to an unbelievable view of the Ponta Delgada marina. We want you to have it all. To open every door for you to discover the very best of São Miguel.

Hotels · Furnas

On an island, which is a spontaneous garden, a valley, which is a volcano's crater, a place with Europe's highest concentration of thermal waters – some cold, some hot, some aerated, others ferrous – and where steam originating from the depths of the earth rises up, this is where we exist: a hotel that aims to be a true experience of communing with nature and the local culture.

Leave your stress behind. Delve into the waters of our Spa, where you will discover two swimming pools (one indoor and one outdoor) of thermal waters originating from the Quenturas spring.

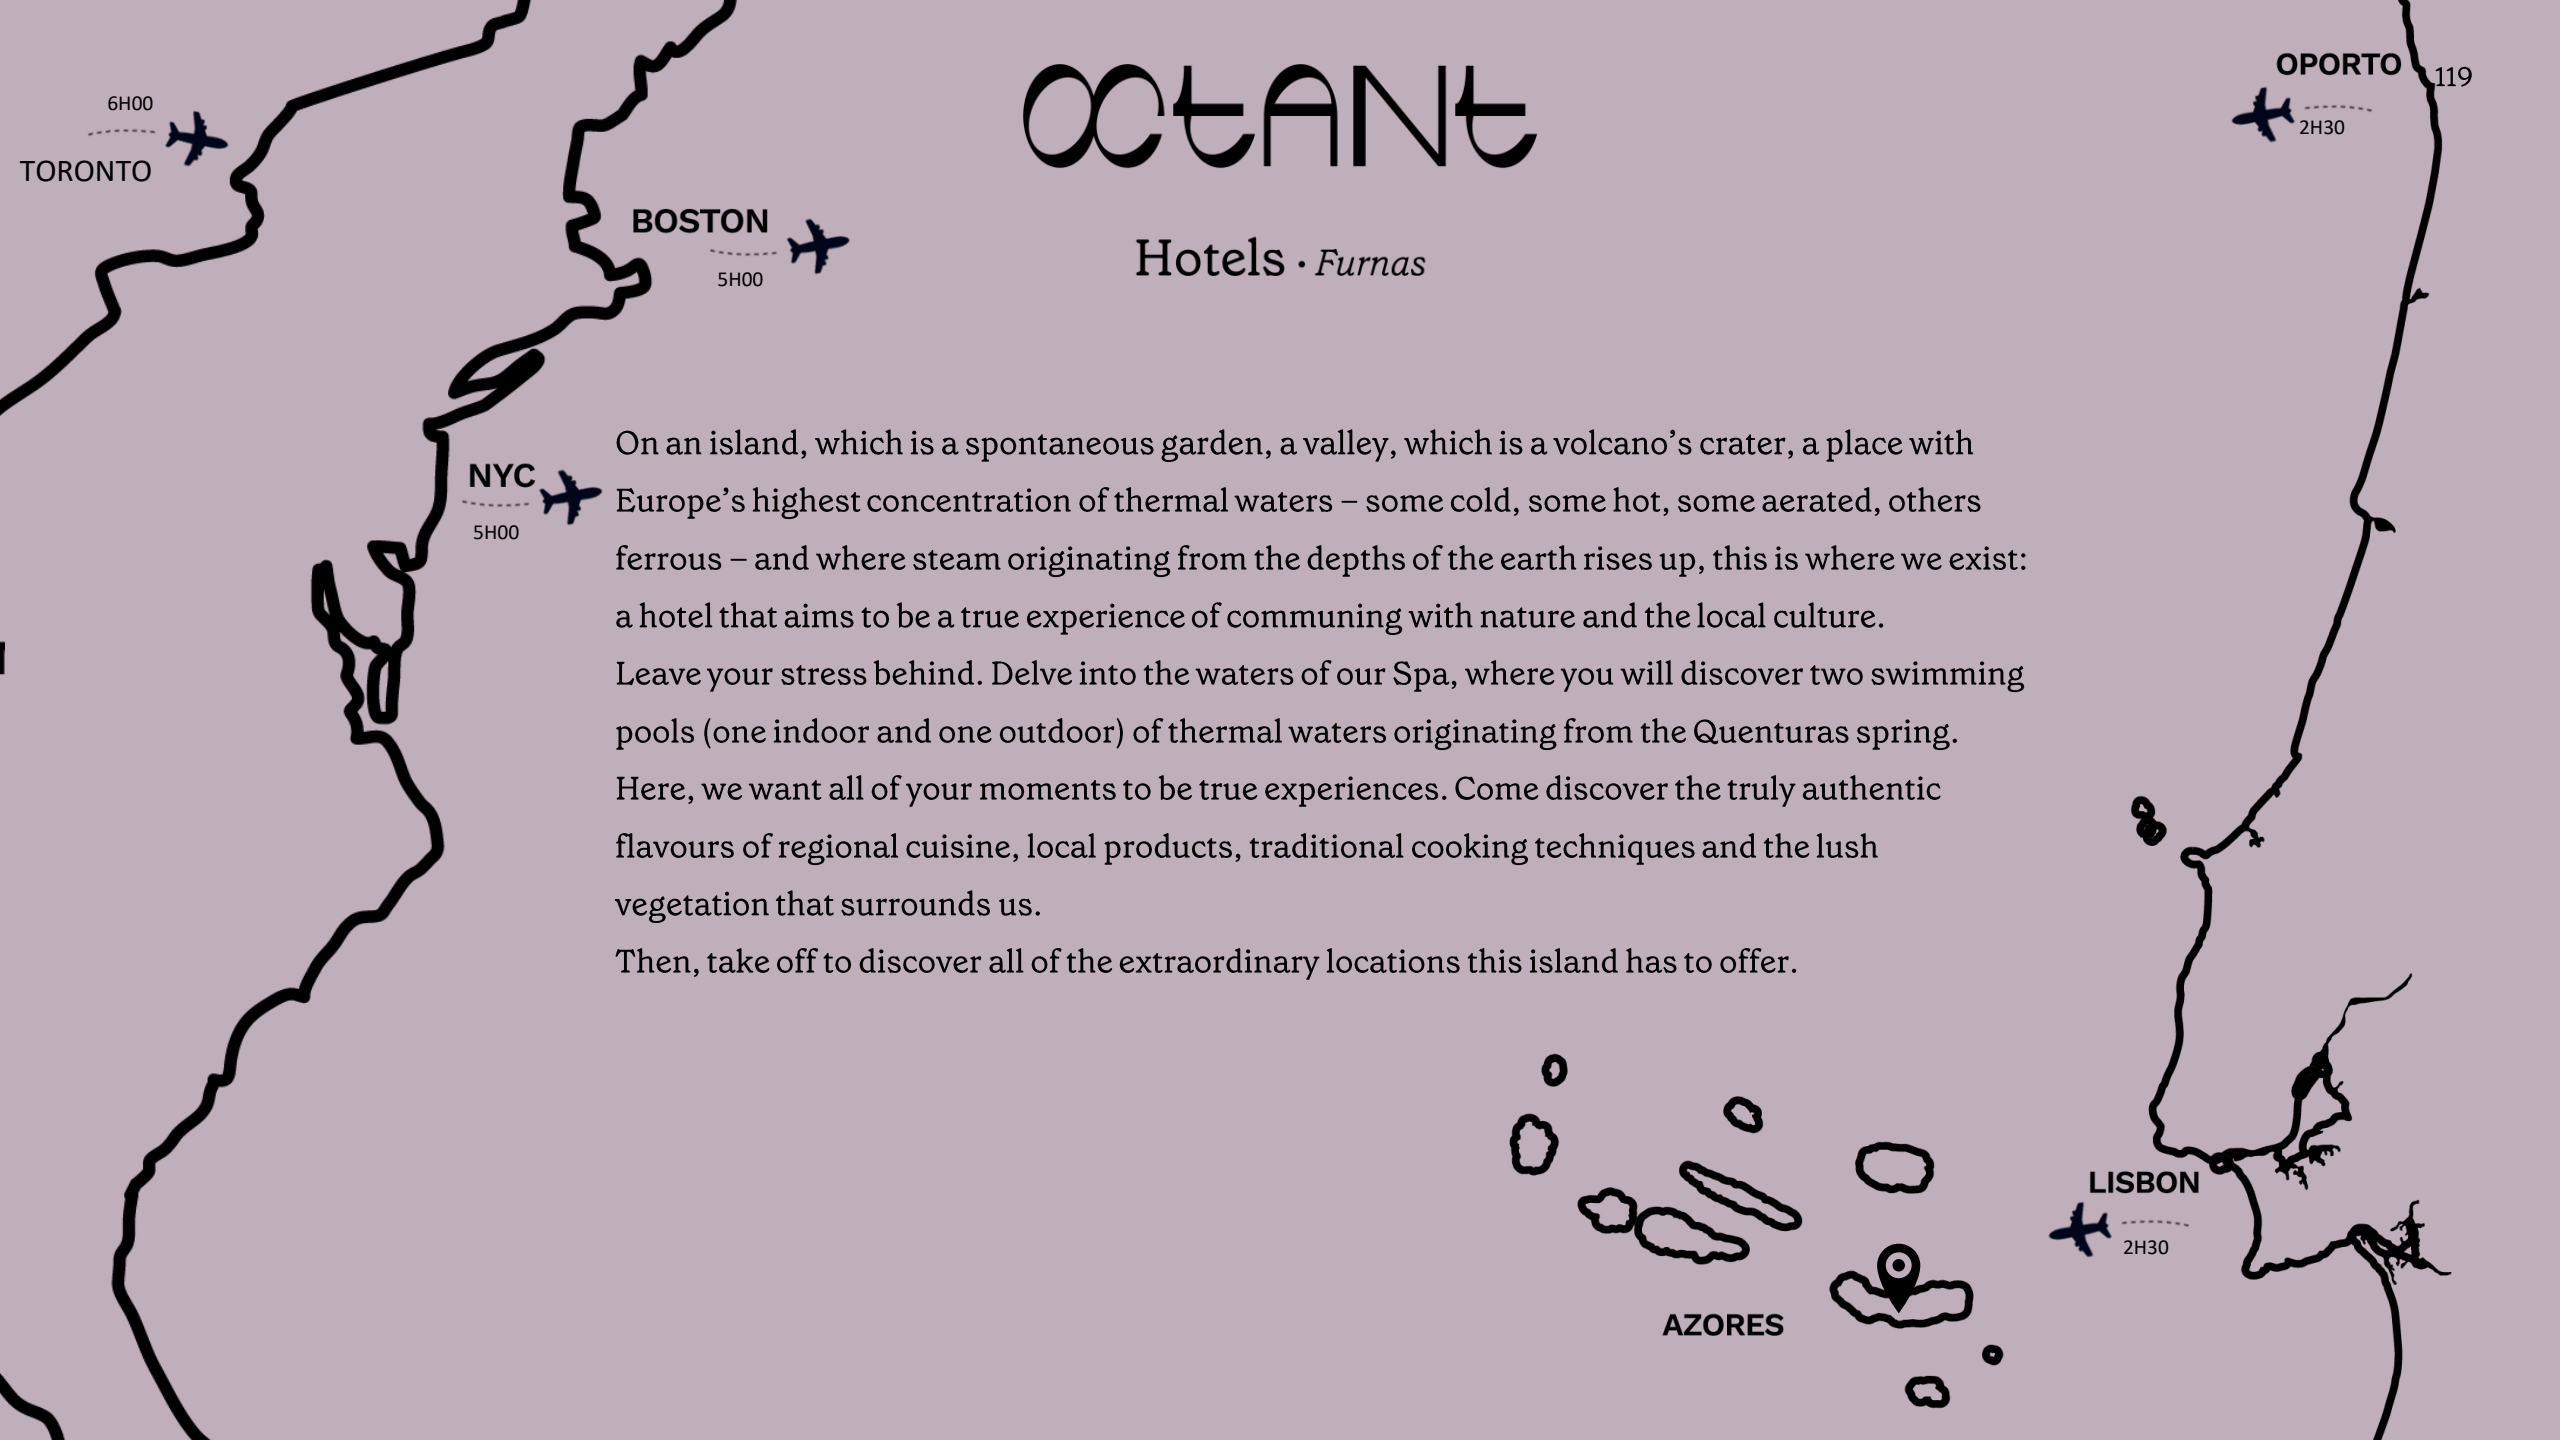

Here, we want all of your moments to be true experiences. Come discover the truly authentic flavours of regional cuisine, local products, traditional cooking techniques and the lush vegetation that surrounds us.

Then, take off to discover all of the extraordinary locations this island has to offer.

## Hotels · Évora

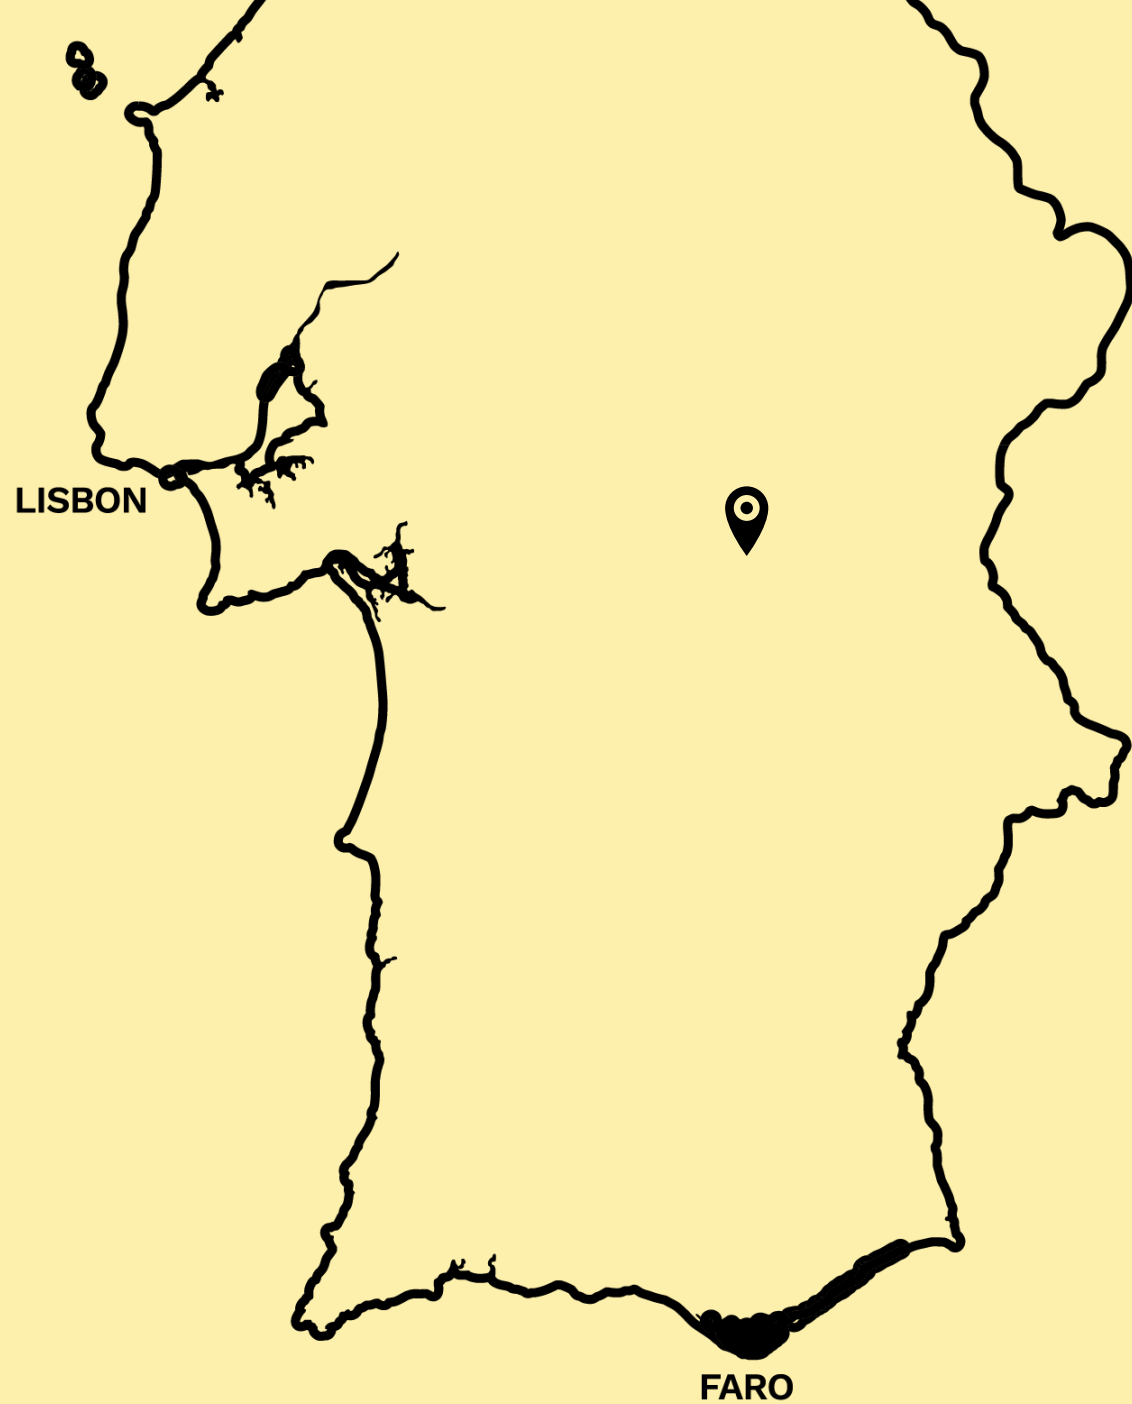

The Octant Évora offers a contemporary architectural design that harmonizes seamlessly with the picturesque Alentejo plains that envelop it.

The hotel's core concept revolves around preserving the region's natural attributes and local traditions while emphasizing organic and handcrafted elements. This philosophy is vividly reflected in its ambiance and décor, where the traditional Alentejo palette of whites and deep blues merges gracefully with natural fabrics and rustic-hued woods.

With a strong emphasis on accommodating families, the hotel includes specific features tailored for this market segment. Family rooms are thoughtfully designed, featuring both regular beds and bunk beds, and there's a pedagogical farm to engage and educate the little ones.

Recognizing the importance of staying connected with the outdoors, each room boasts its own outdoor living area. Furthermore, the hotel boasts two outdoor pools, an outdoor bar with seating, a spacious outdoor gathering area, and a spa complete with a heated indoor pool for those chilly winter days.

***It serves as an idyllic retreat for those*** seeking respite from the stresses of city life and yearning for quality family time.
